- THE DATABASE  
MANAGEMENT SYSTEM  
systems designed to make easier  
the management of the databases  
is called database management  
systems. The database  
management systems are used for  
recording, storage, and  
management of the data in a  
database. Access is also a  
database management system.

Database Management System -  
studyyaar.com - A database  
management system stores data in  
such a way that it becomes easier  
to retrieve, manipulate, and  
produce information.  
Characteristics Traditionally, data  
was organized in file formats.  
DBMS was a new concept then,  
and all the research was done to  
make it overcome the deficiencies  
in traditional style of data  
management. Thu, 17 May 2018
